THE GAIA HERBS DIFFERENCE

Since 1987, Gaia Herbs has been connecting people, plants, and planet to create healing. Today, Gaia Herbs is a leading herbal brand in North America with more than 200 liquid extracts, functional powders, teas, and patented Liquid Phyto-Caps[®]. Our dedication to quality and integrity is unparalleled and meticulously proven by science. We use organic methods to cultivate more than 3 million plants each year on our farm, and we screen the plants in our analytical laboratory to pinpoint the exact right time to harvest and extract in our state-of-the-art processing facility. This results in products exceptional in their purity and integrity.

We are proud to be a Certified B Corporation[®] Using Business as a Force for Good[™]. Our mission to nurture healthy connections with nature extends beyond our herbs through the Gaia Herbs Roots Initiative, where we partner with mission-aligned organizations at the intersection of racial justice, regenerative farming, and health & wellness.
